

April 2009

HM Labelling expands its business area and changes name to HM Systems focusing on end-of-line solutions

HM Labelling A/S, one of the leading suppliers of industrial labelling equipment and print solutions now expands its activities.

HM will in the future under the new name of HM Systems develop and market end-of-line solutions which in addition to labelling equipment also comprises solutions within weighing, checkweighing, inspection, barcode verification and software.

With extensive experience within construction, electronics and software HM Systems has extensive competencies within integration of solutions. Simultaneously HM Systems has a large service organization offering quick response, preventive maintenance, service agreements and 24-hour around-the-clock service.

Also, HM Systems has made partnership agreements with a number of strong partners. With the new set-up HM Systems will get a broader business foundation aiming at developing innovative solutions and supporting our customers.

HM Systems is betting on the future and is currently finishing its new headquarter in Haderslev Business Park and look forward to offering existing and new customers outstanding solutions focusing on optimization, automation, traceability and safety.

Call us on + 45 7454 0933 and we will be at your service. We look forward to a continued and expanded co-operation.
